EDUCATION

B.E. in Electronics and Telecommunication

July 2026

PVG's College of Engineering and Technology, Pune | CGPA: 7.595

Diploma in Computer Engineering

July 2023

Government Polytechnic, Jalna | 85.60%

TECHNICAL SKILLS

Languages: Java, C, C++, Python, JavaScript, HTML, CSS

Frameworks: Spring Boot, Spring Framework, Spring MVC, Hibernate, FastAPI, React, Thymeleaf

Libraries & Tools: JDBC, Lombok, Swagger, Apache POI, Java Swing

AI / ML: PyTorch, Hugging Face Transformers, CLIP (ViT-L/14), Mamba (State-Space Models), Deep Learning, Multimodal Learning

Databases, OS & Tools: MySQL, IndexedDB, Windows, Linux, Git, GitHub

Concepts: Data Structures & Algorithms, REST APIs, Object-Oriented Programming (OOP), MVC Architecture

WORK EXPERIENCE

Technical Content Writer Intern

Mar 2026 – Apr 2026

Paratus Knowledge Ventures Pvt. Ltd.

- Authored structured technical documentation for a Java manual, covering core concepts with clarity and accuracy.
- Delivered well-organized, publication-ready content demonstrating strong command of Java fundamentals and technical writing standards.

Software Developer Intern

Dec 2024 – Mar 2025

AI Technology Solutions Pvt. Ltd.

- Designed and deployed RESTful backend APIs for the Dr. Doorstep App using Java, Spring Boot, and MySQL, improving response handling speed by 30%.
- Engineered onboarding and patient request modules, reducing manual coordination effort by 40% through automated workflows.
- Documented and tested APIs using Swagger and contributed to AI-based service logic, exploring rule-based systems and predictive mapping models to optimize patient-service matching.

Freelance Software Developer

Nov 2022 – Jan 2023

The Oakridge International School

- Designed and developed a Java Swing-based Student Database Management System (SDMS) with a JDBC/MySQL backend, supporting 300+ student records and cutting manual administrative workload by 40%.

PROJECTS

KairosAI – Multimodal Sentiment Analysis Platform | github.com/Siddhant-Rathore123/KairosAI-Multimodal-Sentiment

Python, FastAPI, React, PyTorch, Mamba, CLIP

- Combined Mamba-130m, CLIP ViT-L/14, and FER in a context-aware fusion model, reaching 72% sarcasm-detection accuracy (+27% over baseline).
- Built a full-stack app with 9 analysis modes and offline-first IndexedDB analytics for tracking sentiment trends.
- Added 19-language auto-detection with RTL support for privacy-preserving, CPU-only deployment with zero cloud costs.

Job Portal Web Application | github.com/Siddhant-Rathore123/job-portal-app

Java, Spring Boot, Spring MVC, Lombok, Thymeleaf

- Built a full-stack job portal with Spring Boot using a 3-tier MVC architecture (Controller, Service, Repository); applied Lombok and Spring dependency injection to eliminate boilerplate and improve maintainability.
- Designed RESTful endpoints to serve 20+ pre-loaded job listings and handle new job post submissions via dynamic form processing.

Kanban Task Management Board | github.com/Siddhant-Rathore123/kanban-task-manager

HTML, CSS, JavaScript

- Built a responsive Kanban task board that boosted team productivity by 25% during project sprints through improved task visibility.
- Implemented drag-and-drop functionality with status transitions across three stages: To-Do, In Progress, and Done.
